Luisa is a table lamp for diffused light, a refined and convincing light. Luisa combines Spanish design with Italian manufacturing experience. Luisa has a sweet story that won't leave you feeling indifferent. It reveals a subtle yet convincing light. This is a new story about light, made up of interesting chapters that are still being written.

Composed of traditional hanging curtains suspended from slender carbon fiber rods or arms, the lamp can be hung from a wall, ceiling or moving heavy base. Allows multiple arms to be combined at different angles to provide a local glow where needed. Its humble appearance puts an emphasis on light, carefully and pragmatically directing it precisely where it is needed.

JAKE
2358

MATERIAL	CARBON STEEL+ALUMINIUM ALLOY+ACRYLIC
COLOR	BRUSHED BRASS+CREAM WHITE SUMMER BLACK+CREAM WHITE

The design of the "Jake" is inspired by nature droplets, emotion and the unique moment when the water falls after the rain, and this light reminds us of our fascination with water. It captures the perfection of the natural movement when water collects into a drop. The entire composition, as well as the individual elements and their shapes play with the magic of water, air and gravity. The perfect streamlined highlights this moment, providing a sense of movement.

Marta Perla has designed Siro, a semi-spherical table lamp with a disc at the front releasing in its interior an oblique light thanks to the slim LED light source. Seen from the front, Siro appears to consist of two two dimensional elements, giving the illusion of being perfectly balanced on a surface.

Ink Bamdoo Of Eastern (Lamp) takes the shape and intention of "bamboo knot" as the parent body of the lamp, and uses modern, fashionable copper and crystal glass as the material to create a lamp with a contemporary oriental charm. The neat-line lamp pole is inserted directly into the bamboo lamp body, and the bamboo knots are staggered horizontally and vertically, symbolizing the balance of yin and yang in gossip. "Beauty does not exist in objects, but in the shadowy ripples and light and dark produced by objects.

TROPICO GRANDE

Passing between opaline, coloured and transparent layers, emphasised by the refined curves and the magic of blown glass, the light is free to create surprising and fascinating effects, patterns and moods. Tropico is a spherical cap of opaque opaline glass, flattened and fixed by a large mirrored metal.

NAMI
1384

MATERIAL ALUMINIUM ALLOY+RAINBOW GLASS
COLOR SUMMER GOLD/TITANIUM GREY+CLEAR GLASS

NAMI

Nami, which means "wave" in Japanese, creates a continuous, eye-catching refraction of light. The diffuser, with its signature elegant grooves, opens unexpectedly at the sides to amplify the reflections of light. The graphic outline of the structure creates a visual contrast with the glass surface in an innovative balance between solidity and lightness.

BOYA

Boya is a decorative hanging fitting. It may function as a single piece, but multiplied creates a pleasing collection. It is an exquisite mix of traditional handicraft and cutting-edge technology. When placed in the interior, it becomes it's centerpiece, bringing a new level of elegance. It's light is soft and atmospheric, perfect for cosys paces such as chill and lounge rooms. The hanging system was designed to give the architects the freedom to compose it in dynamic arrangements, and nonchalant wiring gives it a playful character. The warmth of the diffused light sets a calming, inviting mood to any space where the lamp is located.

GOLDEN DISC 1312

MATERIAL ALUMINIUM ALLOY+GLASS/
CARBON STEEL+ALUMINIUM ALLOY+MICROFIBER LEATHER+GLASS
COLOR BRUSHED BRASS+CLEAR GOLDEN SAND

Crystal clear, refracting colorful light, comparable to diamonds. In the bustling and bustling city, encounter the retro style by chance.

MONA
1302

MATERIAL CARBON STEEL+ALUMINIUM ALLOY+GLASS+MICROFIBER LEATHER
COLOR BLACK+EGG WHITE/SMOKEY GREY+GREY/WHITE/
POLISHED NICKEL+CLEAR GLASS+GREY/WHITE

The Mona family is based on the concept of penetrating forms. The light source boldly traverses the ample volume of smooth handblown glass to reveal the thrilling tension inherent in the design. The collection's essence, however, lies in its unconventional construction and refined combination of materials. The entire Mona family has been technologically improved with innovative connectors and the replacement of the wood components with metal ones. These improvements make it easier to change out the light source and clean the lights.
